Leafshield replaced my gutters and installed gutter guards. Demetri (CEO) was prompt to give me an inspection and estimate. He is very knowledgable about his product and his competitor's, so you can be confident you are making the right choice. The installers were professional, efficient and on time. Overall, this company is the one to take care of your gutters and guards.

I have known Demetri for some time now and have always found him to be a person of integrity, and he runs his business the same way. He came out to look at my gutters and determined that only a small section of my gutters were rusted out, and his team replaced those quickly and conveniently. Not only did he give me a great deal, he also cleaned all my gutters at no charge! I highly recommend this company for all your gutter needs. Thanks, Demetri!

After looking at several competitors products we decided Leafshield Gutter Guards was the best fit for us. We are pleased with our selection. The courteous and professional support from sales to installation is second to none. Their follow up after installation has been great. We recommend them to everyone who asks about gutter guards.

Demetri, the owner of Leafshield Gutter Guards, and his team were great. They were responsive and professional and took care to make sure that the job was done right. When a spot in the gutters revealed that it needed more of a seal they were quick to address the issue. We are excited for our new gutters and believe that they will add to the life of our home!

Professional team arrived on time each day and explained in detail how the installation project was to be completed. Everyone wore a mask the entire time while on site. The new gutters look great! I would highly recommend Leafshield Gutter Guards. Thank you for a job well done!

Amazing service at a reasonable price. Highly recommended. I would do it again.

Dimitri and the team installed the Leafshield system on our (and the adjacent) townhouse in a day. We have several 80+' tall pine trees behind us that drop a ton of stuff on our roof that then would end up in the gutters and cause overflows in awkward places. With the Leafshield system in place, all of that happily just sheds off the tops of the system and lets the water go nicely through the gutters.

Leafshield has a better product than most. It has a natural Gravity slant for leaves to roll off. The product is made of aluminum. Therefore it does not break as easily. Great Customer service.

Leafshield Gutter Guards team ticked ALL of the boxes for us! These are my go-to guys for anything on our gutters.

The owner Demetri came to our rescue and made sure we were penciled into their schedule. The team showed up RIGHT on time and did the job in half the amount of time anticipated. The crew was very professional and walked us through the process before even starting.

The installation was on point and I cannot find any flaws or problems with the installation. It looks very clean and well done.

I would highly recommend this to anyone looking for a good quality gutter service!

Thank you leafshield!

****Changed Review*** I know these Review's are important for business, so i wanted to be fair and change it. I realize that i made a typo in putting in phone number on a form in scheduling my estimate. However, i did get Text reminders and no one came to my house. So i guess i made a mistake in some part and i don't want to be negative about others when i make mistakes. *****Old review*****I scheduled an estimate/consultation. I got like 3 text messages and emails reminding me, which was nice, but they never showed. I never got a call or anything.

This is the only gutter guard system that will protect from pine/fir needles. The company was great to work with.

Leaf Shield Gutter Guards is one of the best local businesses i have ever used in the Portland/Vancouver area. I met with the owner Demetri, and he took the time to tell me his story and what separates his business from his competitors. He showed me his gutter guards, helped me to understand the technology, and explained how the service would be done. His crew came out on a rainy day and worked hard throughout the afternoon to finish the job in less than ideal conditions. They showed up on time, practiced social distancing, and were very professional. Due to the rain, Demetei promised to send someone out as soon as the weather dried out to blow off the roof. He kept his word and his crew showed up promptly on the date agreed. With the service, he game me free gutters, downspouts, and the roof cleaning all for free saving me 3600 dollars.

If you are considering Gutter Guards, I recommend Demetri and Leaf Shield Gutter Guards. Call him for an estimate, I guarantee you his prices will be the best as will his products. Local business with great service. Demetri is great. He has been in the business for years and finally decided to build his own business to make sure he offered the community integrity with his work. 5 stars. Best part. And my gutters look great. Plenty of color options. Beyond, I won't be getting up on the roof again to deal with the mess and put myself at risk... Thanks Demetri!

I had Dimitri and his team install Leafshield gutter guards on my home in February. Pine needles and roof gravel are no longer clogging the gutters. Dimitri promptly followed up three months later when there were a couple locations that needed some additional attention due to the roof design.
